

For large PDP masks

Large Digital Three-Point Thickness Measuring Machine

MODEL MG-2500MA

This model measures three points simultaneously for large screen plate (PDP). Black granite of high elasticity and precision is adopted for its main unit so that can measure precisely. Moving rollers are equipped as standard feature to cope with large scale materials.

Custom made products are available for maximum frame size. Please contact us for detail.

■ Main specification

Max. frame size	2500×2500×60t mm
Opening size	2550(W)×90(H)mm
Materials for main unit	Black granite, exclusive table made of stainless steel
Minimum indication value	0.1μm
Indication Accuracy	±1μm
Quantization error	±1 count
Data processing	Output into exclusive printers
Dimensions	2800(W)×2800(D)×1400(H) mm
Mass	3000Kg
Power source	Single phase, AC100~240V
Air supply	5Kg/cm ² (primary measurement) or above
